DETAILED ACTION

EXAMINER'S AMENDMENT

The oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:
It does not identify the city and either state or foreign country of residence of each inventor. The residence information may be provided on either on an application data sheet or supplemental oath or declaration.

Allowable Subject Matter

The following is an examiner's statement of reasons for allowance: The prior art fails to disclose a device for operating a high pressure discharge lamp having, inter alia, a feed device which includes a means for applying an AC voltage to the discharge lamp during a glow discharge when lamp operation is initiated, to apply a DC voltage for a pre-selected time to the discharge lamp after a transition from the glow discharge into an arc discharge, and after the pre-selected time has expired, to apply an AC voltage to the discharge lamp (claim 1). The remaining claims 2 and 3 are allowed by virtue of their dependencies on the independent claim. Hence, the examiner has allowed claims 1 through 3.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 2821

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Okamoto et al., Patent No. 6,661,184 ; Leskovec, Patent No. 6,674,249 ;

Tsuchihashi et al., Patent No. 4,398,123.

None of the above patents discloses the feed device as recited.
